

The game will be made up of 18 pairs of Papa John's products, including pizzas, desserts and of course, some tasty sides.

Instructions

Players: Up to 4

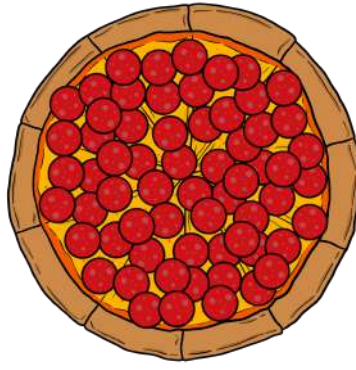

- 1.** Once you have sliced up each image so that they're individual pieces, shuffle them up and spread them out, ensuring the image remains face-down.
- 2.** There are two of each product in the deck, so the aim of the game is to pair up each of the matching tasty treats by guessing which of the cards match – it's all about the memory.
- 3.** Each player has one turn; however, if they get a matching pair they should keep the selected cards and have another go.
- 4.** When the cards match, the players may keep them in their hands to keep score of the number of pairs they have.
- 5.** When a player turns over two cards that do not match, they must turn them back over.
- 6.** Whoever has the most pairs at the end of the game wins!
