---

- 1.** Players need to take it in turns to throw three darts, scoring as many pepperoni and pepper points as possible during their turn.
- 2.** To become the big cheese and win, a player must reach 0 (and finish on a double) with the starting point being 501.
- 3.** If a player scores more pepperonis and peppers than they need before throwing all three darts, then their turn ends, and their score is 0.
