

The game will be made up of 18 pairs of Papa John's products, including pizzas, desserts and of course, some tasty sides.

Instructions

Players: Up to 4

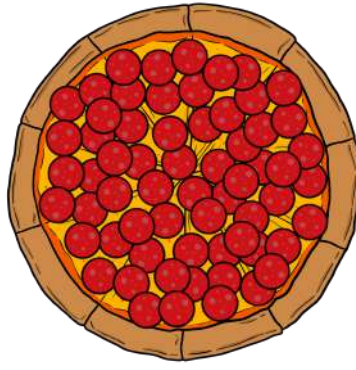

- 1.** Once you have sliced up each image so that they're individual pieces, shuffle them up and spread them out, ensuring the image remains face-down.
- 2.** There are two of each product in the deck, so the aim of the game is to pair up each of the matching tasty treats by guessing which of the cards match – it's all about the memory.
- 3.** Each player has one turn unless they turn over a matching card. If they turn over a matching pair, they keep the cards and may have another turn.
- 4.** When the cards match, the players may leave them turned over, keeping score of the number of pairs they are able to pair up.
- 5.** When a player turns over two cards that do not match, they must turn them back over.
- 6.** Whoever has the most pairs at the end of the game wins!
